

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. PREFACE TO THE WORCESTER BIRTHS,

1714 - 1848.

THE publication of the Worcester Births has been delayed more than a year in consequence of the labor necessary to the complete revision of the list after the first compilation had been made. The original plan contemplated only the classification and printing of such names as were recorded in the town books, but the many evidences of incorrect entries in these volumes and of omissions in the record of prominent families caused me to suspend the work until I could ascertain whether these imperfections could, to any extent, be rectified. Investigation convinced me that the effort would be well rewarded, and, after consultation with the City Clerk, who approved my purpose to make the printed register as complete as possible, I entered upon the task without, as now appears, anything like an adequate comprehension of its magnitude or the length of time it would require. The measure of success resulting can be judged when it is stated that 1,141 names have been added to the original list, a large number of wrong names and dates corrected, and fully one third of the whole verified by other records or by satisfactory testimony. Evidence of the labor and of the careful attention required appears only in a limited degree in the printed page, but if reliability and completeness are taken into account the value of the list has been greatly increased.

The Baptisms of the First ("Old South") and Second (First Unitarian) Churches supplied more than three-fourths of the additions, and a few names were obtained from other church records. Family Bibles and papers in private hands were helpful in many instances. Proofs of the type have been submitted to representatives of the more prominent and numerous families, and many false entries have in this way been corrected. Some

of these slips have been sent to distant parts of the Union ; in many cases their retention has caused delay in printing and considerable vexation. I have exerted all reasonable effort to make families complete, including children born in other places whenever the data could be obtained. Some discrepancies I could not reconcile, and they appear as in the original.

The whole number of Births and Baptisms printed in the following pages is 9,552, 1,159 surnames being represented. Of these the town books supplied 8,411 names, which form the basis of the record. The additions are distinguished by brackets ([) prefixed. Asterisks (*) indicate First Church Baptisms, daggers (†) those of the Second Church. Other sources of information are given in the text. The date of a Baptism is coincident with that of the Birth in very few cases. Generally before the year 1800 from two to ten days may be assumed as the interval, but later there are numerous instances in which the difference is much greater—weeks, months, and even years. In the absence of the Birth record the Baptism is the next best evidence in the majority of cases.

I have adopted the modern spelling in printing the surnames, but have retained the quaint forms of many of the given names in the older entries. My authority for the correction of the town record is given in the line following or at the end of the list of that name. No change has been allowed without evidence sufficient to justify it. The arrangement is alphabetical throughout, in conformity with that of the other records of the same class in the City Clerk's office. Abbreviations are little used : s. for son, d. for daughter, and the shortening of some of the month-names. A dash indicates a blank in the original.

This compilation is offered as a further contribution to the Systematic History of Massachusetts.

FRANKLIN P. RICE.

WORCESTER BIRTHS

This printed register includes all the Births recorded in Worcester from the date of the earliest, November 7th, 1714, to January 1st, 1849.

. Maury and Perkins names, omitted in regular order, will be found on page 288.

. See notes prefixed to the Marriages and the Deaths.

WORCESTER MARRIAGES

5

This printed register includes all the Marriages recorded in the town books from December 17, 1747, to January 1, 1849. No record of the Marriages from 1722 to 1747 is known to exist to-day, and there is no evidence to indicate that such record was made. A few entries of Marriages of Worcester parties which were solemnized in other places during the early period, made in recent years in conformity with the requirements of the Acts of 1857, are printed in the list.

APPENDIX TO VOLUME XII.

WORCESTER DEATHS,

1826 – 1848.

This printed register includes all the Deaths of which record was made in the town books from January 1, 1826 to January 1, 1849. The Deaths from 1717 to 1826 will be found in connection with the *Inscriptions from the Old Burial Grounds*, published in 1878 as a part of the first volume of the Collections of The Worcester Society of Antiquity.

The plan projected in 1889 for the publication of the second series of Worcester Town Records did not comprehend the continuation of the printing of the Deaths. A desire to make the records of the town organization complete in type, and other considerations, have induced the Editor to supply the list for the remaining twenty-three years, although the present volume has already exceeded the first estimate by more than one hundred pages.

. The arrangement is alphabetical throughout. The figures attached to the name of the deceased give the age, in years unless otherwise stated. Relationship to other persons and date of death follow. Abbreviations used are: ch. child; d. day or daughter; s. son; unm. unmarried; w. week or wife; wid. widow. Deaths at the Lunatic Hospital (opened 1833) are indicated by the letters L. H.

. See Proceedings of the Society for 1890 (in Vol. IX., Collections) pages 147-152, for Inscriptions in the Burial Ground at Quinsigamond.
